To be built on both East Shore 77 and 78.

To be built on Sunset 8, 9 and 10.

Imagine boating, skiing, fishing, sailing, canoeing, and swimming on 500 acres of pristine water surrounded by gigantic white pine. The park-like setting surrounding the lake provides an attractive timeless atmosphere. Most visitors compare NEPCO Lake to a lake you would only expect in Ontario, Canada, not in central Wisconsin. Don't take our word for it. One of the Midwest's outboard motor manufacturers filmed its commercials on NEPCO Lake in the 1970's. The commercials referred to NEPCO Lake as a Canadian Lake.

In the last half-century, fewer than five properties on NEPCO Lake have sold (prior to our developments) and most sales were between family members. Most of the homeowners on NEPCO Lake are the descendants of the founders of a large local company. If you want to be on a pristine lake in a great location, here is your chance. There are very few vacant lakefront properties available.

WHY BUY FROM US
Method Of Business:
We buy large tracts of waterfront property. We own the land we are developing. We are not developing and selling for others. We divide the property into mainly lakefront parcels. We sell the property below market prices. We own the company that does all road building and site work. We own the company that does the landscaping and "site" improvements. We own the company that makes the log siding that we put on our homes. We buy windows/doors, shingles, lumber, and most other products in mass quantities. We get the natural stone veneer direct from the quarries. We own the company that does the marketing of our properties.

Advantages Of Dealing With Us:
Priced at below market values. There are no offers/counter-offers. Set price system and quick closings. Paved roads, extensive landscaping, buried utilities and strict covenants. New Wisconsin state certified plats. Guaranteed buildable. General warranty deed.
